

Introducing **Way to Grow Christmas Lighting!!**

Nothing else will indicate your home or cottage is active with visitors and activity during the winter then Christmas lights.

For many of us, this time of year is often the busiest and the thought of more work around the house setting up lights is not appealing. We are now offering our customers a seasonal service where we can put up and take down all your outdoor holiday decorations and lights. We will design a lighting system that will be attractive and automatically turn on.

We will design a light show that will make your home shine.

You have the choice of supplying your own lights or we can quote you a design with energy efficient components. We will put up the lights and take them back down. We can also store them throughout the year. We can purchase the lights and timers as per your design or use your existing lights.

No more messy tangled lights and no more dangerous climbing to put them up and no more climbing back up in the cold to take them down

The most common decorations we setup are:

- **Lights on the roof lines**
- **Lights on roof valleys and peaks**
- **Lights around doors, windows and garage doors**
- **Lights in trees**
- **Garland and wreaths around front entrances**

BOOK BY OCTOBER 10TH

Anyone booking an appointment for setting up their Christmas light by October 10th will receive a 10% discount.

Keep the exterior of your home illuminated with Christmas Lights

Should you have any questions about our new service, please don't hesitate to contact us.
